Member States' performance charts on the implementation of WFD Article 3 and Article 5

21 March 2007

For more details and their interpretation, see Communication COM(2007) 128 and Commission Staff Working Document SEC(2007) 362 'Towards Sustainable Water Management in the European Union' – First stage of the implementation of the Water Framework Directive 2000/60/EC.

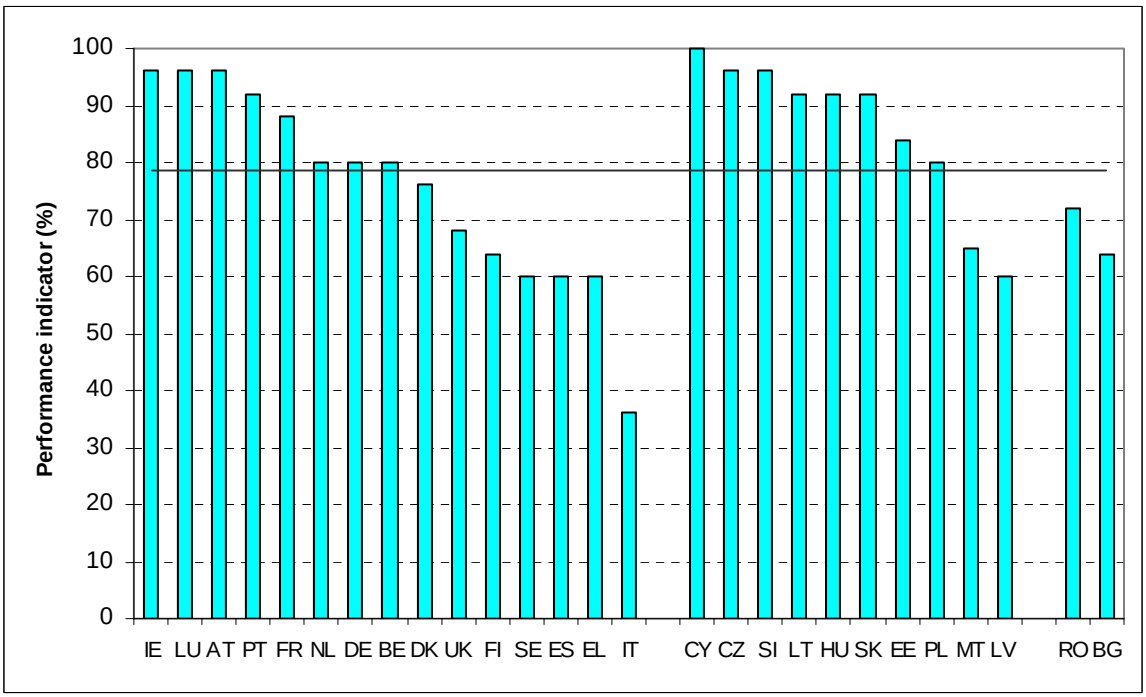

Figure: Performance indicator per Member State regarding the implementation of the administrative set-up – Article 3 WFD – including the EU-27 average (based on the assessment of Member States' reports).

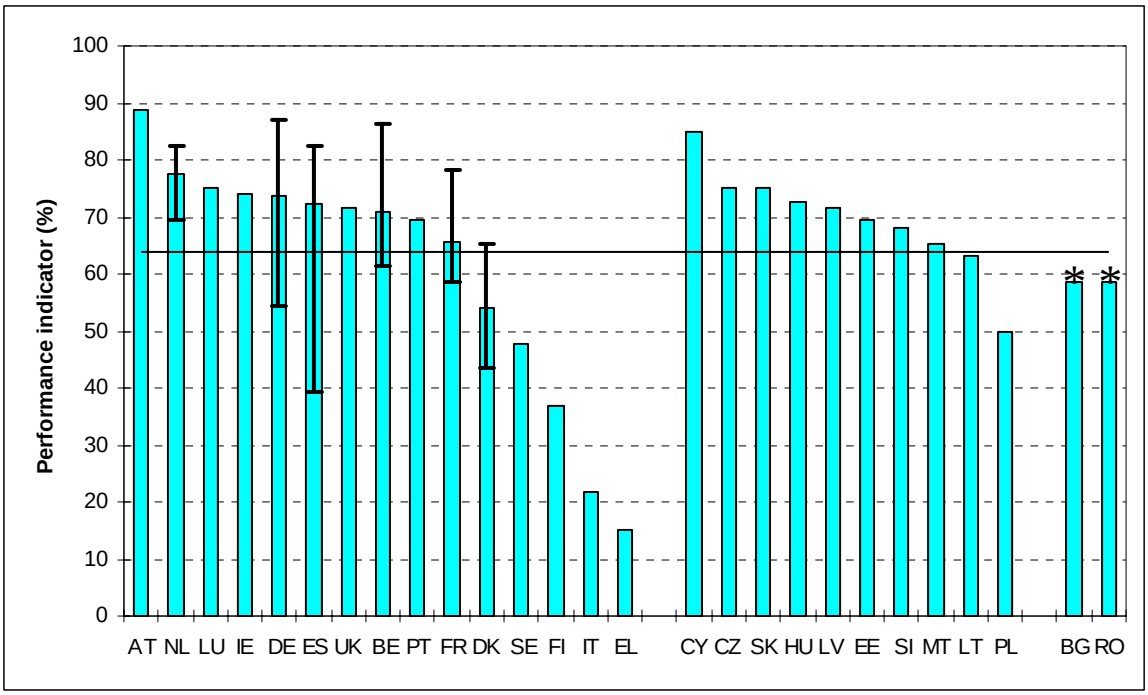

Figure 1: Performance indicator per Member State regarding the ***overall implementation of the environmental and economic analysis*** *– Article 5 WFD – including the EU-27 average (based on the assessment of Member States' reports). For each Member State providing separate reports for their river basin districts, the black lines indicate the range of the different river basin districts. For UK and PL, there is no difference in the score of the different river basin districts for the subject of this chart. *The scores for BG and RO are based on preliminary assessments.*

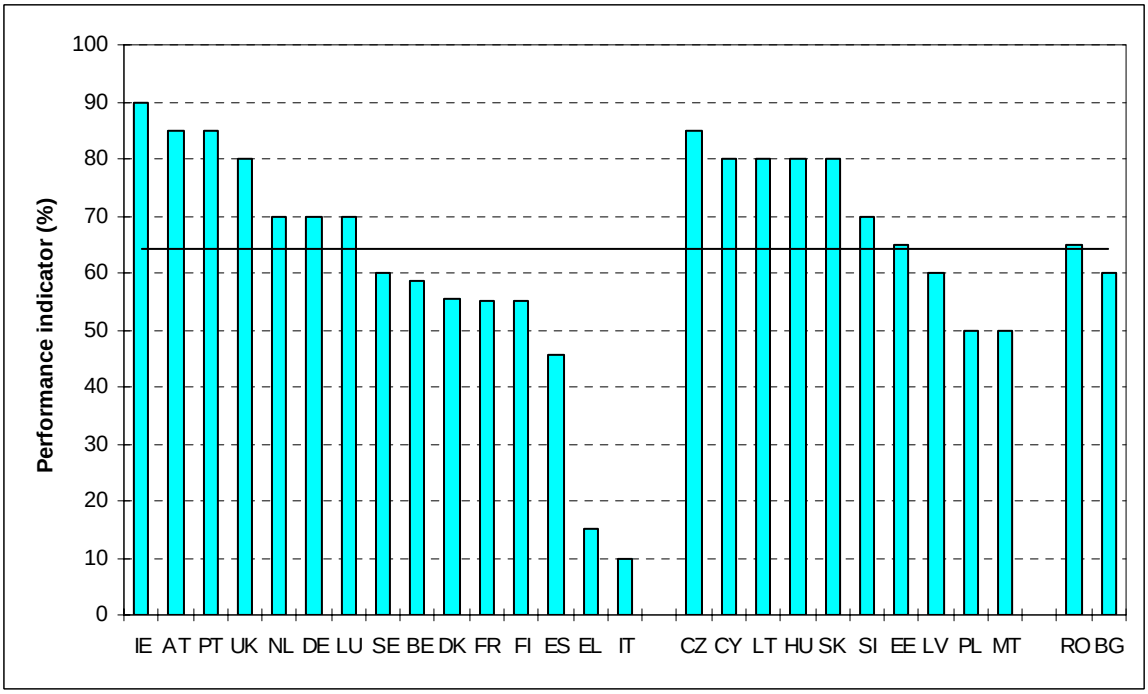

Figure: Indicator per Member State regarding its reporting performance and the EU-27 average (based on Member States' reports).
